

# QUEEN MARY 2 CUNARD

2018 World Voyage

Southampton to Southampton  
120 nights  
M803D  
10 January to 10 May 2018

Queen Mary 2 spends much of her time in and around the Indian Ocean during the early months of 2018. Leaving Southampton with her in January, you'll head for the warmer weather of southern Africa. Two beautiful islands then provide stepping stones across to Australia and New Zealand where you can explore for more than a month. At the heart of our flagship's adventure are six visits to New Zealand. Possibly more than any other, this is a nation known for its breath-taking physical appearance. Following Asia's Indian Ocean shore, you'll then round the Arabian Peninsula and return home via the Suez Canal and Mediterranean.

<b>DATE</b>	<b>MONTH</b>	<b>DESTINATION</b>
10	January	Southampton, United Kingdom
